## VIRTUAL OFFICE REVIEWS

*I have been a client at this office for 5 years. The location In the heart of buckhead is very convenient for me. And every time i stop by the receptionist Britney is there to greet me with a smile and friendly welcome. She's very helpful with anything i need. Rooms are clean and she always has snacks available*

*I would definitely recommend this office for your business!!!*

*I have had a very positive experience at Opus's 515 Los Olas Blvd., Ft. Lauderdale Office. My mail is secure, incoming calls are handled professionally, the receptionist is very congenial, and the conference rooms are kept clean. I plan ahead as best as possible, and therefore have no conference room scheduling issues.*

*I evaluated a lot of virtual office services prior to selecting Opus Virtual Offices. Their monthly fee is very reasonable versus what you get in terms of services and a good address for your company or organization. Our company has been using them for over 2 years and we have no intentions of changing. BTW, virtual doesn't mean no people to help you, the staff at our location has always been great and ready to help us whenever we needed assistance. Great service and easy to business with. Highly recommended.*
